OPERATIONAL UPDATE

ADDED 5.63GWh OF BILLING AN INCREASE OF 5.54% IN MAY TO 107.14GWh

- LPE is billing 107.14GWh, an increase from 101.51GWh at 31 May 2017, representing a 5.54% increase during the month
- An additional 5.63GWh has commenced billing in the month of May 2017

Locality Planning Energy Holdings Limited (ASX: LPE) (the Company) is pleased to inform shareholders of an additional 5.63GWh in billing contracts Under Management (UM) through the month of May, representing an 5.54% increase over the month.

This month saw the effects of Energex redeployment due to cyclone Debbie as mentioned in our March update which resulted in a below average volume converted into UM for the month of May along with a delay of this update. The disruptions caused by service providers such as Energex from cyclone Debbie are expected to return to normal moving forward. As such management estimates a stronger conversion rate to UM in June which will result in a normalised average across the May and June months.
