

## OPERATIONAL UPDATE

### MONTHLY BILLING INCREASES 10.2% IN NOVEMBER

- An additional 5.98GWh has commenced billing in the month of November 2016.
- LPE is billing 64.6GWh, an increase from 58.62GWh at 31 October 2016, representing a 10.2% increase during the month.
- Attributed to developer growth which has increased the average contract length to 6.9 years.
- Continual operational progress driven by strong pipeline conversions.

**Locality Planning Energy Holdings Limited** (ASX: LPE) (the Company) is pleased to inform shareholders of an additional 5.98GWh in billing contracts under management through the month of November, representing a 10.2% increase over the previous month.

November to January has the seasonal effect of lowering conversions due to higher occupancy rates over the holiday period, particularly to communities of the Sunshine Coast and Gold Coast. A larger number of new Development sites are coming on-line to settle and occupy prior to the commencement of the Festive Season. LPE has proven to be a valuable asset to holiday communities as the consumption rates are higher through this period. Our embedded network solution reduces electricity costs, increasing returns for holiday investment properties.

LPE continues to grow communities Under Contract (UC) at a rate that is exceeding the Under Management (UM) which ensures consistent revenue growth into 2017.

**Ends**

### About Locality Planning Energy Holdings Limited (LPE)

LPE's wholly owned subsidiary Locality Planning Energy Pty Ltd, holds an Australian Energy Regulator (AER) Authority to sell electricity and utility services to residential, commercial and industrial customers throughout the National Energy Market. LPE specialises in electricity sales to strata communities, both existing and new developments; generating significant savings on electricity delivered to strata communities.

LPE's unique purchasing model is matched against 5 to 10-year supply contracts providing LPE with consistent recurring revenues. LPE is transforming the electricity supply industry by providing an intelligent solution to help its customers reduce high electricity costs, with no risk and no upfront cost. LPE is at the forefront of innovative electricity supply with a commitment to the integration of technology to provide the highest savings and consumer advocacy to its customers.
